The information and views set out in this publication does not necessarily reflect the official opinion of the European Commission. Neither the European Union institutions and bodies nor any person acting on their behalf, may be held responsible for the use which may be made of the information contained therein.

Publishable summary

This document is the initial version of the CEVOLVER Exploitation Plan. The basis used for this initial plan is the content of the Part B of the Grant Agreement, where the exploitation of project results is described and explained. This document will be a living document and will be monitored and updated during the project lifetime. It describes the process and methodology behind the exploitation of project results and lists the exploitable results of the projects as they become available. The exploitation strategy is also a recurring topic at the CEVOLVER General Assembly meetings.

The Exploitation Plan comprises the following elements:

- Initial list of exploitable results from the project, including partner responsible
- Target market and means of exploitation
- Timeline for the exploitation of each result
- IPR protection

The initial Exploitation Plan has been shared with all partners. The final version will be published in month 40.

Acknowledgement

The author(s) would like to thank the partners in the project for their valuable comments on previous drafts and for performing the review.

Project partners:

#	Partner	Partner Full Name
1	FEV	FEV Europe GmbH
2	BOSCH	Robert Bosch GmbH
3	FORD	Ford-Werke GmbH
5	IFPEN	IFP Energies Nouvelles
6	RWTH	Rheinisch-Westfaelische Technische Hochschule Aachen
7	VUB	Vrije Universiteit Brussel
8	UNR	Uniresearch BV
9	I2M	I2M Unternehmensentwicklung GmbH
10	RBOS	Robert Bosch AG
11	CRF	Centro Recherche Fiat
